SURAT, GUJARAT

INTRODUCTION

Skilled Full-Stack Developer with expertise in Node.js and React. Ready to contribute to high-impact projects and deliver efficient, user-centric applications. Known for collaborative approach to software development.

SKILLS

- JavaScript
- React.js
- Node.js
- Express.js
- MongoDB
- Git – GitHub
- Vercel, Netlify
- Docker

EXPERIENCE

Projects:

- **Collaborative Code Editor:** Developed a browser-based IDE for real-time code collaboration with team spaces, user management, and authentication.
- **URL Shortener:** Created a service using ShortID to generate unique short URLs for long ones.
- **Discord Chat Bot:** Built a Discord bot using ChatGPT API for basic commands and user interaction.
- **System State Protocol (Ongoing):** Lead Smart Contract developer for a decentralized protocol, integrating smart contracts with the frontend.
- **NFT Minting Platform:** Developed a platform for users to mint NFTs from a specified collection

Hackathons:

- **VVP Hackathon:** Built a blockchain-based eVault for secure document storage using IPFS and blockchain.
- **SSIP Hackathon:** Developed a blockchain-based document verification system leveraging IPFS hashes.
- **SIH Hackathon:** Created a blockchain property registry displaying land data with Google Maps integration.
- **CrackedDev Hackathon:** Implemented job data fetching via CrackedDev API, converting it into a subgraph for smart contract use.

EDUCATION

Currently pursuing the 7th semester of a Bachelor's degree in Computer Engineering from Gujarat Technological University (GTU)
